SUMMARY

First-year Computer Engineering student at ENISo, passionate about AI and Computer Vision. Looking for a summer internship to contribute to real-world projects.

EDUCATION

ENISo – National Engineering School of Sousse

sep 2025 – Present

Applied Computer Engineering

IPEIM – Preparatory Institute for Engineering Studies of Monastir

sep 2023 – june 2025

Preparatory cycle in Math-Physics

TECHNICAL SKILLS

Programming Languages : Python, Java, C, C++, JavaScript, SQL

AI & Data : PyTorch, OpenCV, NumPy, Deep Learning, Computer Vision, NLP

Web & Deployment : HTML, CSS, JavaScript, Flask, Streamlit

Tools & Platforms : Git, Linux, Figma, Adobe Illustrator

PROJECTS

MedAI | AI Health Assistant

- Developed an AI pipeline combining OCR and MedSpaCy (NLP) to digitize and analyze medical records, with clinical insight generation; deployed via Flask
- Developed and presented at the Start It Up 4.0 hackathon (24h) — Certificate of Achievement, Pristini School of AI.

Insight | AI & Web Development

- AI recommendation engine for e-commerce using PyTorch and OpenCV with multimodal search, Deep Learning feature extraction, and contextual personalization; deployed with Streamlit.

Mouse Control by Gestures | Computer Vision

- Real-time gesture tracking system using Python, OpenCV, and NumPy — applying Computer Vision and image classification techniques for webcam-based mouse control.
- Strong LinkedIn impact: 22,000+ impressions and ~500 reactions, demonstrating the ability to simplify and communicate technical work to a broad audience.

PneumoScan | Deep Learning – Medical Imaging

- Chest X-ray classification system based on fine-tuned ResNet18 (transfer learning), achieving 90% accuracy on the Kaggle Chest X-Ray dataset.
- Custom PyTorch dataset, ImageNet normalization, binary classification (Normal vs Pneumonia).

Cross-Platform CLI Tools | C++ & File Management

- Development of custom CLI commands not natively available, compatible with Windows and Linux.

EXPERIENCE & INVOLVEMENT

Seasonal Agent | La Poste Tunisienne

june 2024 – 2024 August

- Handled front-desk customer operations in a high-volume setting.
- Developed professional communication and stress management skills; official certificate obtained..

Media manager | ENISo Auto-Crew & ACM ENISo

December 2025 – Present

- Full management of the club's visual and digital identity.

LANGUAGES

Arabic : Native French : C1 – Fluent Anglais : C1 – Fluent

INTERESTS

Artificial Intelligence • Computer Vision • Full-Stack Development • Competitive Programming
